as they have the power to become acquainted with general literature. The ability to read music at sight requires not only the development of two distinct types of sense perception-that of tone with respect to pitch relation, and that of tone with rhythmic impulses showing length and emphasis-but also that control of the voice which enables the possessor to produce tones accurate in time and pitch. "It has been our aim to so teach intervals that they may become a possession of the child's mind.

"In the subject of time the effort was to implant in the mind of the child the time feeling so that the keeping of time might be an action of the mind instead of being, as heretofore, mainly mechanical muscular action. The sight work presented was not only melodious, but was carefully graded so that the children (never having work given them beyond their ability to execute) might sing new work smoothly and without the usual fail in pitch caused by hesitancy and embarrassment.

FROZEN OUT OF COURT.

Judge Kimball's Stove Burned Out and He Had to Go to the Big Ro The little room on the second floor where Judge Kimball dispenses justice has so many places of ventilation that it requires a smallsized wood and coal yard to keep up the neces sary supply of fuel, and the necessity for so much fire to make the place warm enough for the officers of the court and prisoners caused the stove to burn away and this morning the judge had to abandon the room and secure the use of the large court room before Judge Miller could hold court for the trial of jury cases. There were not many prisoners in the dock and so the trial of petty cases did not infringe upon the time of the jury court very long. There were only seventeen prisoners in the dock and seven of them came out in the first procession. INDIGNANTLY DENIES THE CHARGE.

England and the Chilean Affair,

To the Editor of The Evening Star: I have been more than surprised that so far we have not been called upon by the English government to apologize in this Chilean business. To judge from the tenor, if correctly cabled, of the English press, it would seem that we are all wrong, and that Chile, backed by the secret influences of Engiand, is all right. Looking over historical events of a similar character where England was concerned, it crikes the reader of said history as very funny to see England posing as a protector of weaker powers, when the facts are that in every in-stance where her dignity has been offended or her power doubted she has not temporized long, but used her guns with effect, and in this Amos, jr., Miss Lucy Amos, Miss Bert Cochran, Mr. and Mrs. Gore, Miss Florence Gore, Mrs. Waugh, Mrs. Kirkley, Mr. Henry Altschu, Miss Grace Altschu, Mr. W. W. Dyer and wife, Miss Dydr. Mr. and Mrs. Thos. Smith, Mr. Early Gore, Mr. Frank Gore to Miss Switch and Conferred upon her world-wide renown, for I candidly think that there are times in the history Catholic College alumni, together with several eminent divines of the Catholic church, sat down to their third annual banquet last night at Welcker's. It was a pleasant gathering, and at Welcker's. It was a pleasant gathering, and the occasion will long be remembered as one of the happiest of the annual reunions. The president of the association, Mr. Herman J. At the cattle market at Union stock yards at Benning, D. C., yesterday 72 cattle were on the market and sold as follows: Best sold from 4½ in a highly acceptable manner and introduced the cattle market and sold as follows: Best sold from 4½ in a highly acceptable manner and introduced the cattle market and sold as follows: Best sold from 4½ in a highly acceptable manner and introduced the cattle market at Union stock yards at Schulteis, presided, and Mr. A. B. Renehan Fisher will make their future home in Georgetown. Those who acted as nahers were Messrs. Frank Gore, Aifred Fisher and Millard Fisher. the chief of police of the city to which he was of from 10 to 20 per cent on all Parlor and acted his part most admirably, for he not only robbed the person who had been placed in his charge, but murdered him. The attention of our State Department was called to that fact which is extremely backward in forming. A thing has been done. The assassin was never considerable thickness would have developed punished; the family of the victim, who reside in last night; the river men say, had the stream New York city, became impoverished and never been pursuing the even tenor of its way. The canal from Rock creek to a considerable distance above town is frozen solidly. No water of any consequence remains in the upper part at that very time an English merchant been assaulted and roughly treated in Peru, and within forty-eight hours a British gun boat demanded reparation and indemnity and got it. Is it a wonder that we present such a miserable

spectacle before the world, especially in that part of the world where brute force causes respect? The misfortune in this whole Chilcan business is that there has been a fear on the part of shanties inhabited by some but poorly shield might be construed into a desire of personal ag-them from the severity of the weather. The grandisement, while on the other hersonal aggrandisement, while on the other hand quite a number of partisans look upon the movement as a scheme on the part of the administration to perpetuate itself in power; when the fact is than ever perore, and unless outsiders come to their aid quickly many unfortunates will be turned away to suffer. Occasionally things are should only be American citizens, no matter left at tife station house, but the demand far who is hurt or benefited, as long as the nation's honor and dignity are upheid.

There is another important question con-

nected with this matter, and that is the protec tion we are bound to give as a nation to those G. Wagner, captain; P. E. Tavenner, first lieutenant; B. F. Harper, second lieutenant; J. W. Coon, treasurer; F. S. Nerkirk, recorder; S. H. Gladmon, guard; Edw. townstrand for the minister in Chile were any one else but a naturalized Irishman the condition would be different, but the very fact that H. Gladmon, guard; Edw. Why Such Discrimination? To the Editor of The Evening Star:

Why is it that the resident of Georgetown is specially favored by the Washington and Quackenbush for \$3,000 parts of lots 74 and 75 Georgetown railroad if he wants to go to the pension office, Boston House or Eckington by having a free transfer to the Eckington railroad while the resident living along the line of the 14th street route is compelled to pay an extra fare to reach the same place? If it is a good thing to secure Georgetown travel in that way both companies would no doubt be benefited by extending the same privilege to those living along the 14th street line. ranged a testimonial concert to be given at Ma-sonic Temple tomorrow night as a recognition of her constant efforts in the cause of charity.

so many remedies are advertised to cure the Grip that people smile and shake their heads. Now we do not claim Hood's Sarsaparilla to be a cure for this really dangerous complaint. If you have the Grip the best thing you can do is to call a reliable physician. But we do claim that for two conditions in relation to the Grip Hood's Sarsaparilla is a very valuable medi-cina. FIRST. AS A PREVENTIVE.

Hood's Sarsaparilla so purifies the blood and builds in the strength that the system successfully resists attacks of the Grip. This complaint and other diseases are often preceded by a weakness, that tired feeling, which Hood's Sarsaparilla taken in season

BODY COVERED WITH SORES. CURED BY CUTICURA REMEDIES.

I bought a bottle of CUTICURA RESOLVENT, one box CUTICURA SALVE and one cake of CUTICURA SOAP for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his sars being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and it working every day. My neighbors are witnesses t his remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbor WM. S. STEFHENSON, Winchester P. O., Union county, N. C.
